### Key Features and Benefits:

- LED flashlight—for added convenience at night

## User Manual Optional

The Triton 2000 is so easy to use that its user manual may never make it out of the box. The "Go To" menu includes friendly icons and helpful categories like Go To, Create and View. From there a few 'Go' button clicks are all that's needed to navigate its many advanced features. No Ph.D. required!

## Additional Product Features

### Detailed Maps

Detailed, uploadable maps and pre-loaded base maps identify major rivers, lakes, cities, and other geographical boundaries.

### Extremely Rugged and Waterproof

The Triton 2000's rugged design defeats harsh environments. Built to withstand a drop to concrete, it's also waterproof to IPX-7 standards—which means it can be immersed in up to one meter of water for as long as 30 minutes.

### Accurate Bearings

The Triton 2000's simple-to-use, 3-axis electronic compass delivers accurate heading and bearing information—without having to be horizontal to the ground. An embedded barometer also allows users to track pressure changes for weather predictions.

### Clear Reception

An integrated, low-power, high-sensitivity antenna offers clear reception, even in heavy cloud cover and deep canyons.

### Memory Boost

Storing data, including additional maps, MP3 files, photos, and geocache data is easy with the Triton 2000's expandable SD card slot.
