

The image shows the internal components of a Garmin Edge 520 cycling computer. The main green PCB is populated with various electronic components, including a large black integrated circuit (IC) labeled "GARMIN DA14897 32380 32380/000". The PCB is mounted on a black plastic housing. A yellow battery is visible at the top, labeled "100". The bottom of the device features a silver-colored metal plate with the text "GARMIN 105-04583-10 VER 2". The device is shown from the back, with the screen area visible at the bottom.
